

2024 BELT RE-CERTIFICATION PROGRAM FORM

Crow offers a re-web policy for Crow Driver Restraint Systems **ONLY**.

RE-CERTIFY SERVICE INCLUDES: Replacing all the webbing & pads if applicable. We use your hardware.

- Do not send in your restraints if your hardware is not in EXCELLENT condition, we cannot accept rusty, damaged, or aged hardware.
Your SFI tag cannot not be older than **2019**. NOTE: If your restraints do not meet this criteria they will be returned to you at your expense.
- Send in ALL your hardware with your restraints. You cannot switch-out your hardware for another style, i.e. silver to black hardware, kam lock, ratchet, etc. The process of re-certifying is replacing all your webbing and reusing your existing hardware.
- Hardware does have a life expectance. Upon inspection your hardware may indicate this is the last time these restraints can be re-certified. A yellow label will be sewn on your restraints indicating that this is the LAST time your restraints can be re-certified; this will also be noted on your invoice.

We are currently re-certified to this date.

Date Sent to Crow: _____
