CROW SAFETY GEAR

NEW UTV RESTRAINT

More and more UTV owners are requesting kam lock restraints because of the ease of buckling up and the dynamic look.

The benefit of this NEW 2-inch PRO restraint is that most side-by-sides or UTVs have small containment or bolster seats; with this new revolutionary kam tang, the adjusters are only 6 inches apart, built into the kam lock tang that clicks directly into the kam lock.

The new restraint adjusts at the lap instead of the traditional 12" separation with the steel roller adjusters, making it more convenient and easy to access.

30162PRO 5-WAY KAM LOCK PRO SERIES UTV RESTRAINT

- 2" 5-way kam lock restraint
- Lap belt with kam lock tangs
- Pull-down adjustment
- Individual harness
- 2" aluminum adjusters
- Anti-submarine belt
